

ORACLE[®]

**Pragasen Moodley – Head of OU Africa
Live Virtual Classes**

What is a Live Virtual Class?

Interactive, online training with Oracle University experts

- Delivered in real time via Web conferencing and audio
- Comparable to our traditional in-class training
- Includes live chat, videoconferences, polls, whiteboarding, simulations, and more.
- Saves time and money by avoiding expensive travel

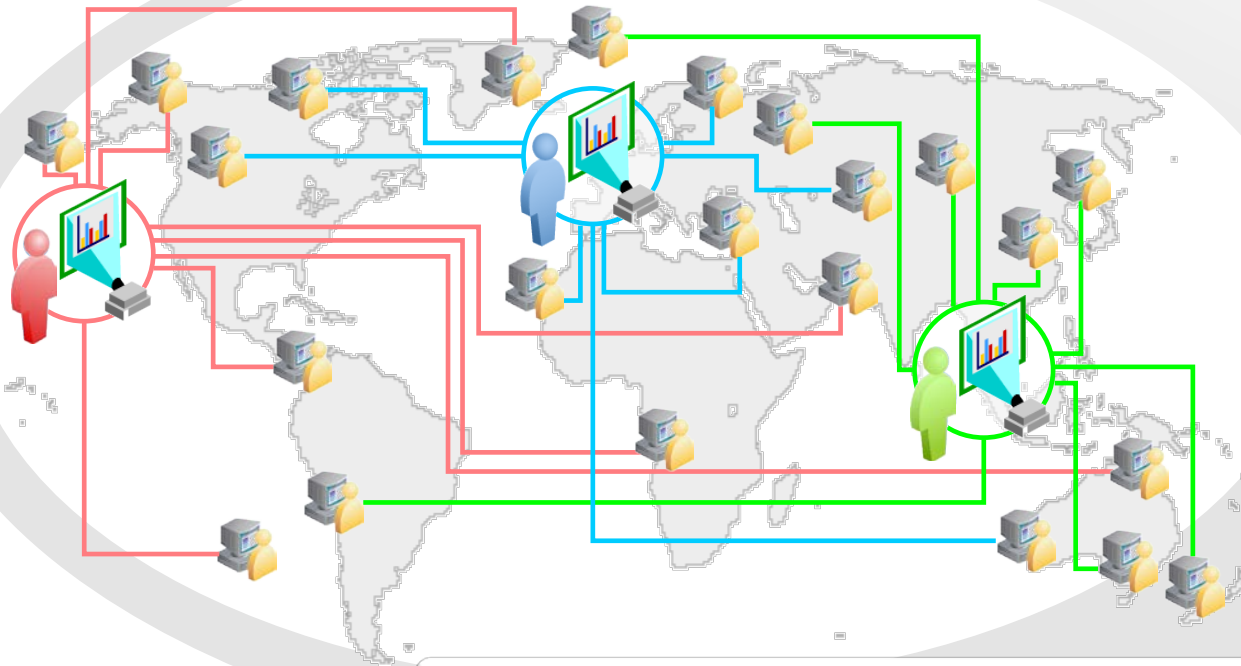

Interactive, Instructor-Led Training

The image displays two overlapping screenshots from the Oracle Training Center. The top screenshot shows a 'Lab' activity titled 'In this lab, you will:' with a list of tasks: 'Read a case study to determine company profile, password, and language requirements', 'Update the company profile', and 'Activate languages for the company'. A 'Participants' list on the right includes Wendy (Host), Brett Salmon, Bridget Heigelmann, Cynthia Rogers, Richard, and Sheetal Patel. The bottom screenshot shows a 'Manufacturing Operations Center' diagram. It features a central 'Manufacturing Operations Data Model' connected to various systems: ERP Systems (Prod Sched, Quality, Cost Mgmt), Manual Data, Corporate BI, Users (Plant Mgr / VP of Mfg, Production Manager), MES, Shop Floor Communication Drivers (PLC, CNC Machines, DCS, SCADA Systems, Advanced Process Control, Human Machine Interface), and Automation and Process Control Systems. A 'Contextualization Engine' and 'Role-Based Dashboards' are also highlighted. The Oracle logo and copyright information are visible at the bottom.

Same Quality Instruction More Convenient Format

- Mirrors traditional in-class format
- Same expert instructors as our classroom training
- Same content - enhanced for online delivery
- Lab 24x7 access for full duration of class
- Same lab machines as our classroom machines
