The South African Oracle User Group NPC

1999/021964/08 - Draft

Annual Financial Statements for the year ended 31 December 2022

Statement of Members responsibility and approval

The committee is required in terms of the Companies Act of South Africa to maintain adequate accounting records and are responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is their responsibility to ensure that the annual financial statements fairly present the state of affairs of the company as at the end of the financial year and the results of its operations and cash flows for the period then ended, in conformity with International Financial Reporting Standard applicable to Small and Medium-Sized Entities.

The annual financial statements are prepared in accordance with International Financial Reporting Standard applicable to Small and Medium-Sized Entities and are based upon appropriate policies consistently applied and supported by reasonable and prudent judgements and estimates.

The committee acknowledges that it is ultimately responsible for the system of internal financial control established by the association and places considerable importance on maintaining a strong control environment. To enable the committee to meet these responsibilities, the board sets standards for internal control aimed at reducing the risk of error or loss in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the association and all employees are required to maintain the highest ethical standards in ensuring the association's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the association is on identifying, assessing, managing and monitoring all known forms of risk across the company. While operating risk cannot be fully eliminated, the association endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The South African Oracle User Group NPC

1999/021964/08

Annual Financial Statements for the year ended 31 December 2022

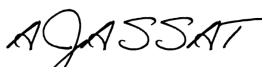

Statement of Members responsibility and approval

The committee is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the Annual Financial Statements. However any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

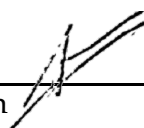

The committee have reviewed the association's cash flow forecast for the year to 31 December 2023 and, in light of this review and the current financial position, they are satisfied that the company has or has access to adequate resources to continue in operational existence for the foreseeable future.

These annual financial statements have not been audited or independently reviewed in compliance with the applicable requirements of the Companies Act of South Africa.

The annual financial statements set out on pages 8 to 16, which have been prepared on the going concern basis, were approved by the board on 12 July 2023 and were signed on its behalf by:

A. Jassat

Annual Financial Statements for the year ended 31 December 2022
Committee's Report

The committee presents their annual report on the annual financial statements of the association for the year ended 31 December 2022.

Main business and operations

The association commenced trading in the Promotion of Interest and Awareness in the Successful Development and Use of Oracle Products and Services industry from 30 September 1999.

No matter which is material to the financial affairs of the association and requires disclosure in the financial statements has occurred between 31 December 2021 and the date of the approval of the annual financial statements.

The operating results and state of affairs of the are fully set out in the attached annual financial statements and do not, in our opinion require any other comment, save for those mentioned below.

Financial results and dividends

The financial results show that the association has made a loss during the current financial year. The member expects that the association will perform adequately in the new financial year. The association is expected to have sufficient cash resources to meet its obligations.

The director have not declared dividends and none are recommended.

Going concern

The association presently operates as a going concern and is expected to continue to do so for the foreseeable future, consequently annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent liabilities and commitments will occur in the ordinary course of business.

Annual Financial Statements for the year ended 31 December 2022
Accounting Policies

1. Basis of preparation

The principal accounting policies used in preparing these financial statements are set out below and are consistent with those used in prior years, unless otherwise disclosed. The financial statements are prepared on the historical cost and fair value bases as disclosed in these policies, using South African Rand, which is the functional currency of the association.

These financial statements comply with International Financial Reporting Standards applicable to Small and Medium-Sized entities.

2. Summary of significant accounting policies

2.1 *Cash and Cash Equivalents*

Cash and cash equivalents includes cash on hand, demand deposits and other short-term highly liquid investments with original maturities of three months or less. Bank overdrafts are shown within borrowings in current liabilities on the statement of financial position.

2.2 *Financial Instruments*

Initial Recognition

The association classifies financial instruments, or their component parts, on initial recognition as a financial assets, a financial liability or an equity instrument in accordance with the substance of the contractual arrangement.

The South African Oracle User Group NPC
1999/021964/08 - Draft
Annual Financial Statements for the year ended 31 December 2022
Accounting Policies

2.2 *Financial Instruments (continued)*

Financial assets are recognised when the association becomes a party to the contractual provisions of the respective instrument. Such assets consist of cash, a contractual right to receive cash or another financial asset, or a contractual right to exchange financial instruments with another entity on potentially favourable terms. Financial assets are derecognised when the right to receive cash flows from the asset has expired or has been transferred and the group has transferred substantially all risks and rewards of ownership.

Financial liabilities are recognised when there is an obligation to transfer benefits and that obligation is a contractual liability to deliver cash or another financial asset or to exchange financial instruments with another entity on potentially unfavourable terms. Financial liabilities are derecognised when they are extinguished, that is discharged, cancelled or expired.

The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

Financial instruments at fair value through profit or loss are financial assets held for trading and/or designated by the entity upon initial recognition as fair value through profit or loss. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term or if so designated by management.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets (trade and other receivables), except for maturities of greater than 12 months after the balance sheet date which are classified as non-current assets.

The association assesses at each balance sheet date whether there is objective evidence that a financial asset or group of financial assets is impaired.

Accounting Policies

2.3 Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of goods in the ordinary course of the company's activities. Revenue is shown net of value-added tax, returns, rebates and discounts.

The company recognises revenue when: the amount of revenue can be reliably measured; it is probable that future economic benefits will flow to the entity; and specific criteria have been met for the company's activities, as described below.

A - Conference Fees

The Company renders a service. Revenue is recognised when the Company renders a service to the customer on the day the transaction takes place. Conference Fees are usually paid via electronic funds transfer.

B - Membership Fees

Membership fees are charged in advance on an annual basis. Membership fees for full members are determined on the turnover of the member. New memberships are calculated on a pro-rata basis for the remainder of the year.

C - Interest income

Interest income is recognised using the effective interest method.

2.4 Employee benefits

Short-term employee benefits

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as paid vacation leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.
