of AP leaders considered quitting over manual AP

Tipalti, 2024 (n=600)

18%

of accountants make errors every day under strain

Gartner, 2024 (n=497)

20 000+

accounting professionals short in South Africa

SAIPA, 2024

Keep your talent: from a data entry team → to a finance department

Today, time lost to

- Keying invoices into the ERP
- Chasing approvals by email
- Month-end overtime, weekends lost
- AP turnover and constant rehiring

With Yooz, time redeployed to

- FP&A, budgets and cash forecasting
- Supplier negotiation: better rates and terms
- Fraud, compliance and audit controls
- Business partnering with operations

How Yooz AI takes the manual work out of AP

Manual invoice entry & keying

Chasing approvals across teams

Fraud risk & vendor verification gaps

No audit trail, no compliance

How Yooz AI solves it

AI Capture & Non-PO Coding

Template-free line extraction. An AI agent codes non-PO lines to GL accounts and dimensions.

3-Way PO Matching

PO, receipt and invoice matched at line level. Only exceptions reach a person.

Flexible Workflows

Rules down to supplier, GL account and amount threshold. Parallel approvals and escalations.

Fraud & Duplicate Controls

Duplicates blocked. Forged or tampered documents flagged. Vendor onboarding with approvals.

Vendor Statement Recon

Statements matched against invoices, credit notes and payments. Pay once it reconciles.

Security & Audit Trail

ISO 27001, SOC, GDPR. Full timestamped trail. Legal archiving (ISO 14641-1). Every action logged.

Entirely licence-free • Unlimited users • Unlimited organisations & sites • Fully scalable

Volume-based pricing on documents processed, not seats, not entities. Grow without penalties.

One no-touch flow, from purchase to export

No-touch

Straight Through Processing - Intelligent - Scalable

Workflow

Purchase

Create PR/PO/GR and approve using workflows.

Automate PO import from financial systems.

Capture

Automate intelligent capture, extraction, analysis, and classification, powered by AI.

For all documents, all channels, and all formats.

Review

Automate GL coding and PO matching.

Automate vendor statement reconciliation.

Approve

Approve or reject using smart workflows (parallel & line-level capabilities).

Pay

Payment runs from Oracle and your bank (EFT).

Export

Automate export to more than 250 financial systems.

Yooz Portal

Invite vendors to join the Yooz ecosystem and upload their invoices digitally with the ability to monitor invoice/payment lifecycle and collaborate

Budget | Archive | Search | Monitor | Optimise | Audit | Reconcile | Secure
